

I support media diversity

I'm not going to spout law and statistics at you...others have done somuch more eloquently than I could. The people have spoken, to the tune of 99% against deregulation...the right thing to do is listen. If you'd have bothered to attend hearings like the one I attended in Atlanta last week, you might be able to put a human face on this issue and do the right thing.

Thanks for your time,  
Valerie Barry
